

Total Door SYSTEMS
Global Leader in Integrated Access Technology™

BULLETIN

ATTENTION: All Total Door Distributors/Sales Reps

DATE: May 21, 2014

REGARDING: New Price List #24

On August 1, 2014 new pricing will go into effect for all Total Door customers. This new pricing structure will supersede all other price lists. All orders received on or before July 31, 2014 will be invoiced at Price List #23A prices. Orders will be scheduled on a first received basis & must be shipped within our standard lead time. Requests for delayed shipments will result in the order being invoiced at Price List #24 prices.

Enclosed please find Door Price List #24, Parts Price List #24 and Discount Schedule #24. In effort to further streamline our processes and reduce our environmental impact, these items will be disbursed in digital form only. Additional copies are available for download on the Total Door website.

If you are using the Total Door Estimating/Purchasing program, you will need to download a new version to update the price changes. If you are not currently using our program but would like to, please contact the factory. We encourage all distributors to take advantage of this program.
