

Customer Supplied 3-Ply Veneer by Others

3-ply wood veneer is used for horizontal grain or complex finishes. Total Door is only able to provide single step stain finishes in-house. All other highly customized veneer finishes must arrive pre-finished on 3-ply veneer.

Specification

3 Ply Thickness:	.100 Min .115 Max
Veneer Face:	1/36" to 1/50" (1/42" Nominal)
Cross Band:	HDF or Natural aspen .060" thick
Backer:	1/36" to 1/50" (1/42" Nominal) No open knots and no splits
Sheet size:	2" wider and 2" taller than door size (Add additional 8" for doors with standard P14 exit devices)

Procedures for supplying veneer by others:

Mark each sheet with the following information:

1. Door number
2. "Top" or "Bottom"
3. Push or Pull side of door
4. Mark and dimensions for special alignment

All product to be palletized with complete plywood coverage to prohibit freight damage

Include "Customer Supplied Veneer" Packing Slip
