

## Vertical Grain Wood Veneer Door Facing

*Total Door can only wrap the door edge with a single ply veneer that has paper backing and is flexed.*

*Total Door is only able to provide single step stain finishes in-house.*

### Procedures for veneer by Total Door standard supplier:

- Identify species and cut
- If requesting a specific log or flitch, identify number and supplier
- Material will be purchased through TDS supplier
- Identify finish – stain and clear coat or clear coat only
- If custom stain, provide control sample for matching
- Samples must be approved prior to production
- Total Door to inspect material upon receipt per the inspection criteria below:

### Inspection criteria for TDS supplier veneer:

- Thickness
- Size
- Species
- Cut
- Pair Match
- Backer
- Smooth PSA
- No raised or overlapped seams
- No split seams
- No rough surfaces (all flitches smooth)
- No irregularities
- \*Note: veneer will be rejected if any visible potential problems are identified as these issues may contribute to the premature failure of the veneer
